

## **NIADA Legislative Alert: Members Urged to contact their Senators as Misinformation Campaign Against Brownback Amendment Grows**

***(Senate vote may possibly occur within 24 hours)***

WASHINGTON – The Brownback amendment has come under new attack, this time from groups representing local banks and credit unions.

The Independent Community Bankers Association and the Credit Union National Association have publicly opposed the Brownback amendment, sponsored by Sen. Sam Brownback, R-Kan.

In response, NIADA is calling upon its member dealers across the country to make a final push in support of the Brownback amendment.

With the vote expected possibly within a day, dealers must take the opportunity to explain to their senators that supporting the Brownback amendment will keep dealer-assisted financing affordable and a viable option for consumers. And again, dealer financing did not cause the financial melt-down brought on by banks, mortgage companies and Wall Street.

***NIADA is urging dealers to call their members of the Senate immediately. Senators can be reached through the Capitol switchboard at (202) 224-3121.***

Thank you,

Mike Linn, CEO  
NIADA
